GLOSSARY OF ICONS

New	new	New style or colour related to last release
Advertising	adv	Advertising campaign style
Best Seller	Best seller	Best seller style as for sell-out forecast
Front Material		Specifics of front material for an evaluation of different methods of adjusting the frame
Temple Material		Specifics of side material for an evaluation of different methods of adjustment
Size		Horizontal size of the lenses to better adapt to facial fitting. The size is defined with "Boxing" system
Height		Maximum height of the lenses defined with "Boxing" system to evaluate usage for prescription
Diameter		Maximum diameter of the lenses: the measure is meant to determine the minimum diameter of the lenses to fill the ring
Base		External lens base, i.e. lens bending radius
Bridge		Bridge size defined with "Boxing" system
Side lenght		Side lenght for a better evaluation of facial fitting
Flex / Spring Hinge	flex	Hinge which keeps its initial balance and adjustment, thereby avoiding the need for subsequent adjustments.
Optyl ® Material	Optyl	Patented Safilo material thermosetting plastic, guarantees excellent surface finish and higher strength
Titanium Material	TiTANIUM	Titanium is quite simply a product made of 100% titanium: a unique, comfortable, hypoallergenic, bio-compatible, extremely lightweight and corrosion-resistant frame material
Kids		Suitable for children
Rxable	RX ABLE	Sunglass frame which can be fitted for a prescription lens.
Polarized Lenses		Lenses whith and additional benefit of a polarized filter. Polarization reduces glare created by reflected light while enhancing color contrast, definition and depth perception.
